What is JoRAS?

JoRAS (Joint Research Assist System) is a joint-use platform developed at CSIS UTokyo, providing diverse spatial data and services to support researchers in Japan and abroad.

✓ 200+ joint projects yearly, with researchers actively publishing and presenting outcomes!

✓ CSIS faculty from diverse fields host joint projects and help match newcomers with the right expertise!

Eligibility	Researchers at universities or research institutes in Japan or abroad. Students may partcipate.[1]
Application	Anytime during the year via the JoRAS website. Japanese fiscal year: April 1 – March 31. Note: Some datasets are limited to use within Japan. Please see website for details.
Duration	Within the approved fiscal year. Renewable for up to 5 years.
Report	Annual registration and reporting of publications and results required. [2]

[1] The Principal Investigator of joint project must be a faculty member or equivalent.

[2] Presenting research progress is encouraged at the annual "CSIS DAYS" symposium.
